

Very, very hurtful and sad, it brings tears to my son and I eyes. This is the law, with three Lawyers. I Am just appalled by the action of the courts, to Allow big business to what ever they want average working people. This is my life of work for 55 years of it and it comes down to this at 74 years. Then have others you know for the same amount of time to go against you for money and living off my "Life Estate". We have ideal what's involved. We have no where to turn ~~we~~ we had lawyers whom worked against us, ~~adversely~~ ^{adversely} got paid for money gain. I am tired running out of stream for ^{monetary} thirteen years, long for sci person plus other personal issues. God is good. Thus far I am holding my own with little issues, open heart surgery, a little back problem, with all the illegal activity, fraud, ~~etc~~

VANDERLISM ^{destruction} _{personal act}

This was done for monetary
gain to keep me off my hill &
house, mean, ugly.

Living Room before destruction, I took pride in this house, my father designed this house for my grandparents, when I look at what they did it still makes me want to cry.
